

DATA ANALYSIS

OVERVIEW

Curious about how data drives decisions in business, nonprofits, and everyday life? This hands-on session is perfect for beginners and aspiring analysts of all ages. You'll learn how to collect, clean, and interpret data, uncover patterns, and tell compelling stories with numbers. From spreadsheets to simple visualizations, we'll show you practical tools and techniques you can start using right away. With real-world examples and interactive activities, this workshop makes data analysis approachable, useful, and even fun!

OUTCOMES

After attending the Data Analysis workshop, you'll understand how to collect and organise data, spot trends, and make sense of numbers in a way that supports smart decision-making.

You'll learn how to use simple tools like spreadsheets and charts to explore real-world information and communicate your findings clearly. This session builds your confidence with data, helping you ask better questions, think critically, and make informed choices.

WHAT ARE PEOPLE SAYING?

I'm here today to develop a website, it's been a brilliant opportunity that has allowed us to get a professional looking face online.

I've learned so much and it has been really simplified and now I feel confident to go home and work on it.

PROGRAM AND STRATEGY

1

Youth Engagement & Experience

Empowering young people through hands-on digital experiences, skills development, and real-world opportunities to build confidence and career readiness

2

Digital Literacy Education

Offering tailored training programs that equip individuals of all ages with essential digital skills from basic computer use to advanced online safety practices.

3

Community Partnerships

Collaborating with local organizations, schools, and businesses to expand the reach and impact of digital inclusion initiatives, fostering a supportive ecosystem.

4

Advocacy and Awareness

Raising public awareness about the importance of digital inclusion and advocating for policies that promote equal access to technology and the internet.

OUR IMPACT

37

Internships & voluntary opportunities created.

£15,000+

Financial Savings to 3rd sector organisations.
