

WORDPRESS WORKSHOP

OVERVIEW

Build your very own website in just two days at our hands-on WordPress workshop! This fun and beginner-friendly session is perfect for anyone who wants to learn how to create a website from scratch, no experience needed. You'll learn step-by-step how to choose a theme, add pages, upload pictures, and write your own content. By the end of the workshop, you'll walk away with a live website you can keep growing.

OUTCOMES

By the end of the WordPress workshop, you'll have a fully functional website that reflects your style, interests, or business. You'll gain skills in choosing layouts, writing content, and uploading images—plus the confidence to keep updating your site on your own. This workshop helps build creativity, digital confidence, and practical tech skills that you can use for school, work, or personal projects. Whether you're promoting a hobby, starting a small business, or just exploring something new, you'll leave with something you're proud of.

WHAT ARE PEOPLE SAYING?

I'm here today to develop a website, its been a brilliant opportunity that has allowed us to get a professional looking face online.

I've learned so much and it has been really simplified and now I feel confident to go home and work on it.
