ONLINE SAFETY

OVERVIEW

Stay smart and safe online with our interactive Online Safety session! This engaging workshop is designed to help kids, teens, and adults understand how to protect themselves while using the internet. You'll learn about strong passwords, spotting scams, safe social media habits, and how to keep personal information private. With real-life examples and practical tips, this session makes online safety easy to understand and apply

OUTCOMES

After attending the Online Safety session, you'll know how to protect your personal information, create strong passwords, and recognize common online scams. You'll understand how to stay safe on social media, avoid cyberbullying, and make smart choices when using websites, games, or apps. This session builds confidence and awareness so you can enjoy the internet while staying safe and respectful. Whether you're using the web for fun, learning, or connecting with others, you'll have the knowledge to do it wisely.

WHAT ARE PEOPLE SAYING?

I'm here today to develop a website, it's been a brilliant opportunity that has allowed us to get a professional looking face online.

I've learned so much and it has been really simplified and now I feel confident to go home and work on it.

PROGRAM AND STRATEGY

1
Youth Engagement & Experience
Empowering young people through hands-on digital experiences, skills development, and real-world opportunities to build confidence and career readiness

2
Digital Literacy Education
Offering tailored training programs that equip individuals of all ages with essential digital skills from basic computer use to advanced online safety practices.

3
Community Partnerships
Collaborating with local organizations, schools, and businesses to expand the reach and impact of digital inclusion initiatives, fostering a supportive ecosystem.

4
Advocacy and Awareness
Raising public awareness about the importance of digital inclusion and advocating for policies that promote equal access to technology and the internet.

OUR IMPACT

37
Internships & voluntary opportunities created.

£15,000+
Financial Savings to 3rd sector organisations.

£36000
Value of social value produce to date.

WAYS TO HELP OR SUPPORT

Become A Volunteer
Help bridge the digital divide and make a real difference in people's lives!

Donate Our Program or Campaign
Support digital inclusion by donating money or equipment—your contribution helps provide access to technology, empowering those in need.

Follow and share!
Help spread the word by sharing our social posts, every share increases awareness, reaches those in need, and brings us closer to bridging the digital divide!
